- Tools & Performance: Code Splitting, Performance & SEO Optimization
- Collaboration: Git, GitHub, Team Collaboration, Component Libraries & Design Systems

---

PROJECTS

FoodHub – Restaurant Management Platform **Live** **Client** **Server**

- Developed a comprehensive full-stack meal ordering system with Next.js 16, TypeScript, and Tailwind CSS for customers, providers, and administrators
- Integrated Stripe payment processing with secure webhooks, real-time cart synchronization, and complete order lifecycle management
- Built role-based dashboards with sales analytics, menu controls, and customer insights for restaurant owners and system admins
- Delivered mobile-first responsive design using Shadcn UI components with PostgreSQL and Prisma ORM for robust data management

Prop Share – Real Estate Investment Platform **Live** **Client** **Server**

- Architected the complete frontend for a fractional real estate investment platform featuring residential, commercial, and land assets
- Built responsive UI with promotional banners, property showcases, and category navigation
- Implemented property comparison, wishlist, investment cart, portfolio tracking, and 24/7 support
- Integrated REST APIs for secure checkout, dividend tracking, and inventory management
- Designed investor help center interface and collaborated with backend team for seamless user experience
- Tech Stack: Next.js, TypeScript, Tailwind CSS, React Hook Form, Zod, REST APIs, Shadcn UI
